

ELEPHANT
Gypsum Board

Elephant MoldBloc

Mold Resistant Board

Mold Resistant Gypsum Board

Elephant MoldBloc

MoldBloc by Elephant Gypsum Board was specially made for mold protection of interior ceiling in low ventilation rooms of flooded areas like rooms with waterfall, rooms with fish ponds, flooded room, etc. It is for strengthening ceilings and your health.

Properties

Black-mold protection with certification from the Thailand Institute of Science and Technology (TISTR).

Health safety decreased inhaling risks.

Easy to install same as regular gypsum board installation

Eliminates ceiling dismantling or repairing problems.

Characteristic

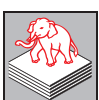

Gypsum board	Size	Weight	Usage Area
Elephant MoldBloc	1200x2400x9 mm	18 kg	Damped rooms and low ventilating rooms, and possible waterlogging rooms or areas i.e. rooms with waterfall, rooms with fish ponds, flooded room, etc.

Instruction

Elephant MoldBloc should be used together with Elephant ProLine or PlusLine for strengthening flat ceiling systems and should be used together with mold protective paint because the mold may occur on either ceiling or exterior paints.

Specification

Attach 1200x2400x9mm Elephant MoldBloc to Elephant ProLine with certified TIS 863-2532 made from galvanized steel according to TIS 50-2538 and JIS G 3302-1987 together with Elephant hanging devices and leveling set accessories which have adequate strength for ceiling support according to standard of **THE SIAM GYPSUM INDUSTRY (SARABURI) CO., LTD.**
