

**ELEPHANT**  
Gypsum Board

**4 TAPERED Edges** **HEATBLOC SYRIA**

## Heat Resistant 4-Tapered Edges Board

# SYNIA HeatBloc

**SYNIA HeatBloc** is a 4-tapered edges gypsum board suits to create a seamless, attractive and perfect ceiling tile. Specially equipped with metallic foil on its back side to provide efficiency in heat reflection for residential homes or building use.

**SYNIA HeatBloc** comes with special edges that are sloped at its ends, providing a sloped edge after screwing in, which is convenient for jointing and plastering.

## Special Features

- > Metallic foil padding on its backside providing up to 89% heat reflection.
- > Lighter than general gypsum boards.
- > Easier and more efficient to install.
- > Provides an attractive and seamless look even in critical lighting condition.
- > Strong, durable, unbendable and long lasting.
- > Seamless, easy to cut, provides a smooth incision.
- > Perfect for screwing in.
- > Easy to plaster due to its sloped edges around the board.
- > Thailand Industrial Standard (TIS) certified.
